| New motor vehicle                       | 772*25%*4/12      |          | 64              |
| Total charge                            |                   |          | 11,164          |

#### d) Boat

The company will require an overhaul cost for the boat every four years, from 1 July 2023. Therefore, the company will need to mobilize funds of FRW 6 billion for every four years to assure the smooth replacement of engine. The engine will be depreciated over its useful life which is four years.

The depreciation of the engine will be computed separately from the depreciation of the boat. Since the acquisition of the boat was completed on 1 July 2023, then the depreciation charge for the year to 31 December 2023 will be apportioned to six months

| Depreciation for the year of KGV boat engine boat electric engine | FRW 6,000/4*6/12 |             | 750 |
|---|------------------|-------------|-----|
| Value of the boat   |                  |             |     |

| Depreciation 2022   | 315*10%          | (31.5)      |     |
| NBV Dec 2022  |                  | 283.5       |     |
| Depreciation 2023   | 284*10%          | (28.35)     |     |
| NBV before transfer to IFRS 5                                     |                  | 255.15      |     |
| Fair value as at 31 Dec 2023                                      |                  | 215         |     |
| Impairment  | 255.15-215       | 40.15       |     |

The Kenya office has accumulated depreciation of FRW 66.5 million as at 31 December 2022 and FRW 94.85 million as at 31 December 2023.

Since, the building is held for sell as per IFRS 5, it no longer meets the criteria to be recognized under IAS 16. Instead, the asset will be accounted for under IFRS 5 as a non-current assets held for sale.

On initial recognition under IFRS 5, the building will be recognized at the lower of carrying amount and fair value less costs to sell. If the fair value less costs to sell lower than carrying amount, the difference is an impairment loss to be charged to profit or loss account

The impairment loss of FRW 40.15 million will be charged to profit or loss account. The building held for sell will be presented separately from the other assets and no depreciation to be charged after 31 December 2023.

| Award 1 mark for each condition mentioned                                       |       |
| Q4) b)  | 5     |
| i) Award 1 mark for each item shown in the computation of impairment            | nt-   |
| 3 Marks   |       |
| ii) Explanation for recoverable amount attract 2 marks                          |       |
| Q4C) award marks as follows   |       |
| Profitability Ratio: 1 mark for each correct ratio calculated and 2 mark for    | 5     |
| correct analysis provided   |       |
| Liquidity Ratio:1 mark for each correct ratio calculated and 1 mark for correct | t 3   |
| analysis provided   |       |
| 2 marks for Correct Key Area of Improvements                                    | 2     |
| Total   | 20    |

### **Model Answer**

### a) <u>Conditions necessary to classify asset as held for sale</u>

- a) The asset must be available for sale in its present condition: The coaches held for sale should be available for immediate sale as stated in the question that the coaches are available in the parking compound.
- b) Management is committed to a plan to sell the assets: The management approved to sell these motor vehicles on 28 February 2024.
- c) There is an active plan to locate buyer: Before classifying the motor vehicles under disposal group of assets held for sale, TSINDA Ltd should start the process of searching for a potential buyer.
- d) The asset is being actively marketed: The advertisement to auction the asset should be in place.
- e) The sale is expected to be completed with 12 months of its classification as held for sale. TSINDA Ltd should be able to prove that the vehicles can be sold within 12 months.
- f) It is highly unlikely that the plan will be significantly changed or withdrawn.
- b)

### i) Impairment loss

|                    | Million |
|--------------------|---------|
| Carrying amount    | 340     |
| Recoverable amount | 160     |
| Impairment loss    | 140     |

The recoverable amount is the higher of the value in use of FRW 150 million and fair value less cost to sale of FRW 160 million. Therefore, the recoverable amount is FRW 160 Million.

# Note: Journal entries

Dr: impairment-P/L FRW 140 million

Cr: Motor vehicles FRW 140 million

# ii) Recoverable amount

IAS 36 state that the entity should assess the impairment for all class of assets before year end if there is an indication of impairment.

The recoverable amount is the higher of the value in use and fair value less cost to sale of an asset. The value in use is the present value of future cash flows from use of the asset.

c. ii)

| Ratio                      | Formula                             | 2024   | 2023                                    |
|----------------------------|-------------------------------------|--|---|
| Gross profit<br>margin:    | (Gross Profit/<br>Revenue) ×100     | (80,000,000/240,00<br>0,000)×100=<br>33.3%   | (60,000,000/200,000,000)<br>×100 =30%   |
| Operating<br>Profit Margin | (Profit Before Tax<br>/Revenue)×100 | (50,000,000/240,00<br>0,000)×100 =<br>20.83% | (40,000,000/200,000,000)<br>×100 = 20 % |
| Return on<br>Equity (ROE)  | (Profit Before Tax/<br>Equity)×100  | (50,000,000/90,000<br>,000)×100=55.56%       | (40,000,000/70,000,000)×<br>100= 57.14% |

## 1. Profitability Ratios

# Analysis:

- The gross profit margin has improved, indicating better cost management or increased efficiency in production.
- The slight increase in OPM suggests improved efficiency after considering operating expenses.
- A marginal decline in ROE could reflect the increase in equity outpacing the growth in profits.

# 2. Liquidity Ratios

| 00,00 |
|-------|
|       |

| Quick | (Current Assets – Inventory) | (60,000,000-20,000,0  | (50,000,000-15,000,0  |
|-------|------------------------------|-----------------------|-----------------------|
| ratio | /Current Liabilities         | 00)/30,000,000)       | 00)/30,000,000        |
|       |                              | =(40,000,000/30,000,0 | =(35,000,000/30,000,0 |
|       |                              | (00) = 1.33 times     | 00) = 1.17 times      |
|       |                              |                       |                       |

The quick ratio has improved, reflecting enhanced liquidity even after excluding inventory.

### ii) Key Area of Improvement

One key area of improvement for Muhabura Ltd is **cost management**, particularly in controlling **operating expenses**. While gross profit has improved significantly, operating expenses grew by 50% (from FRW 20 million in 2023 to FRW 30 million in 2024). Implementing cost-saving measures or streamlining operations could enhance operating profit margins and overall profitability.

## **QUESTION FIVE**

### Marking guide

| QN | Description   | Marks  |
|----|---|--------|
|    | Award 0.5 for every realization value of assets included in the order of payment for debt           | 3      |
|    | Award 1 mark for every preferential creditor considered as first payment option                     | 3      |
|    | Award 0.5 mark for computed net fund balance available to secured debt after preferential creditors | 0.5    |
|    | Award 1 mark for considering secured creditors  | 1      |
| a  | Award 0.5 mark for each unsecured debt and 0.5 mark for total of unsecured debt                     | 1.5    |
| u  | Award 1 mark for computed balance available to equity holders                                       | 1      |

|    | 1 mark awarded for each point (1 mark * 5)  | 5      |
| c  | Benefits of adopting IPSAS  |        |
|    | 1 mark awarded for each point (1 mark * 5)  | 5      |
|    |   | 20 ark |
|    | Total   | S      |

a)

Liquidation is 'the process of law whereby a company is wound up to terminate its corporate life. It is also referred to (either alternatively or concurrently) in some jurisdictions as winding up and/or dissolution

# Procedure for cash distribution

The liquidator will realize assets of the company and distributes the proceeds from realisation among the various claimants in the following order:

- 1. Legal charges
- 2. Liquidator's remuneration
- 3. Cost or expenses of winding up
- 4. Workmen's dues
- 5. Preferential creditors
- 6. Full secured creditors, creditors secured by floating charges, and partially secured creditors
- 7. Unsecured creditors
- 8. Owners of the company

# Tsinda Ltd cash distribution will be completed as follows

|  |         | Available<br>funds |  |
|--|---------|--------------------|--|
|  | Million | Million            |  |
|  | FRW     | FRW                |  |
| Vehicle caught by Fire                                   | •       | 160                |  |
| Other Motor vehicles                                     |         | 520                |  |
| Inventory  |         | 25                 |  |

| Loan not full paid by collateral securities 230-395      | (165)   |                    |  |
| Unsecured creditors                                      | (620)   |                    |  |
| Total unsecured creditors 165+620                        |         | (785)              |  |
| Balance available to equity holders                      |         | 90                 |  |

# b) Explain five ways in which existence of significant influence is evidenced as per IPSAS 7

The existence of significant influence is evidenced in one or more of the following ways.

- 1) Representation on the board of directors (or equivalent) of the investee
- 2) Participation in the policy making process
- 3) Material transactions between investor and investee
- 4) Interchange of management personnel
- 5) Provision of essential technical information

## c) Five benefits of full IPSAS compliant by the Government of Rwanda:

- 1) Enhanced on the quality and comparability of the financial statements being prepared. The financial statements of the Government of Rwanda can therefore be compared to any other country in the world which had adopted IPSAS.
- 2) Consistency. Adoption of IPSAS makes the preparers of financial statements adopting the same accounting policies over time.
- 3) Transparency. Adoption of IPSAS has led to transparency in management of public funds.
- 4) Enhances accountability on how financial resources of the public sector are managed.
- 5) Improves on Governance: full adoption of IPSAS has led to improvement on the systems by which the public sector is directed and controlled.
