## **Required:**

Using Regression analysis method of cost estimation,

- i) Find the variable cost per unit.
- ii) Calculate the Fixed cost.
- iii) Formulate the total cost equation.

## (2 Marks) (1 Mark) (1 Mark) (Total: 20 Marks)

### **QUESTION THREE**

a) SMART Enterprises is a producer of customized office furniture. Customers are to order and give specifications before the company starts making the furniture depending on the taste and preferences of their clients. Below are the specifications of Job number 005 (J005) which was ordered by a client in the month of February 2025.

The job was to use timber and metal as the raw materials. Timber consumed was 13 kgs and the total metal used was 18 kgs for the job. The cost per kg of timber was FRW 900 per kg while the metal cost was FRW 1,200 per kg.

To complete the job, it was to take 20 hours and the labour cost per hour was FRW 1,500. Variable overheads accounted for 60% of the total labour cost. The fixed production costs per annum was FRW FRW 795,000. Fixed selling and administration costs accounted for 30% of production costs. It is the practice of Smart to charge a profit margin of 25% per job. A customer has offered to buy the customized office furniture at FRW 160,000. In a year a total of 30 jobs are to be completed.

## **Required:**

- i) Prepare a job cost card for job J005 clearly showing the following; prime cost, marginal cost, absorption cost, job cost and job price. (10 Marks)
- ii) A customer has offered to buy the office furniture at FRW 160,000, should SMART Ltd accept to do the job without a compromise on the pricing model of the company.

iii) Explain the difference between job costing and batch costing.

(3 Marks) (2 Marks)

b) Ikiraro Ltd Management Accountant has informed you as the recently recruited Accountant of the decision of the company to change from traditional costing technique to activity-based costing. The Management accountant has provided you with the following information to enable you to find the cost per unit of the two products A and B.

Details 51CPARMAY2025 ICPARMAY2025ICPAR	RMAY2025 CARMAY2025ICPAR	MAY202BCPARMAY2025ICPARMAY
